

HETECH's Manufacturing Commitment

Quality electronics manufacturing has been the core of HETECH for almost 20 years. Ongoing investment in innovative technology, for example SMT line (Surface Mount Technology), enables HETECH to offer you services and quality at top international manufacturing levels. Manufacturing to the highest standards has always been our driving commitment.

In order to offer our customers a true "One Stop Shop" approach, HETECH has stringently assessed and selected a group of partner companies to assist with supportive tasks such as industrial design and mechanical requirements. In addition, HETECH is a leading member of the Asia Pacific Product Realisation Centre CAPPRO (www.cappro.com.au) facilitating access to a wider range of experienced companies and quality services.

At HETECH, we confidently deal with complex projects to run of the mill electronics products. Our success is built on experience, networking, quality local manufacturing and competitively sourced international components.
